

A PERSONAL MESSAGE for the Joli Dancer™ HAIR WEARER.

The Joli Dancer 30 minutes test.

The Joli Dancer™ is the “extreme performance” wig for active Alopecians, as well as all women & children with little to no hair of their own. It is not like any other wig you have worn.

It is extremely light, all hand tied and very breathable. In fact, the first impression is often “It feels like it’s not there”.

Joli Dancer’s specially sourced, US-made silicone, grips amazingly well. No tape or glue is used, even during extreme sports, hot yoga, or professional dancing.

The skin top hides the knots and looks like hair growing from your scalp. The small lace front and new, longer, temple design in the Dancer-4 make for a very natural hairline. The advanced cap design allows for updo’s and ponytails. The hair is our beautiful premium standard European hair.

You can wear your Joli Dancer during high-energy activities, such as dancing, martial arts and working out. Professional dancers wear their Joli Dancer during performances on camera.

At first, it will feel unfamiliar to you. But wear it for 30 minutes and, as you become used to this new sensation, you will begin to notice how comfortable, light and secure your Joli Dancer feels on you. There are now many hundreds of Joli Dancer Alopecian hair wearers worldwide. Many have written to us with a similar theme: “The Joli Dancer is my favorite wig ever”.

Ask your Authorized Joli Caméléon Professional about available Joli Dancer colors, lengths, sizes & custom features.
