# Why the best?

Firstly it's the gorgeous, double-drawn, one-length, premium European hair. Double-drawn? When hair grows naturally there are a lot of new growth short hairs mixed with the long hairs. And, naturally, a healthy head of hair still loses hair every day. A Joli Caméléon hair creation is different. We "double-draw" the hair to remove 70% of the short hair. It is a much more expensive way to make a hairpiece, that's why most other companies don't do it. And all hairs one length means a full, luscious hairpiece, without straggly ends.

The Flexi top is the lightest, most flexible hidden knot topper available, and comes with long returns that are feathered-in to create a celebrity look.

And the Joli Flexi Toppe is all handtied and beautifully finished with a DiamondNet lining, that provides extra comfort and adds to the useful life of the hairpiece.

Stocked in Medium base 5"x 6", and Large base 6"x7.5" with a choice of 14" or 18" premium European hair. This is the industry's finest hair wear, at a surprisingly reasonable price. A true luxury hair creation for everyday wear. It is also a safer alternative to wearing strand or tape extensions. Easy to fit and manage.
